

# Vantage Point<sup>TM</sup> Revolutionizing the Virtual Classroom

for Adobe® Connect™

There is no denying that Adobe Connect is the most advanced and sophisticated learning platform today. One of the most powerful elements of Adobe Connect is its extensibility, as it facilitates delivery to large groups. It also provides a rich learning environment, offering tools that can boost learner interactivity. Vantage Point extends Adobe Connect's power by enabling facilitators to deliver a full classroom experience, in an advanced virtual environment.

Vantage Point sits seamlessly on top of Adobe Connect, adding depth to the virtual classroom with not only tools that instructors and producers need to deliver effective learning, but features that enable participants to comprehend and apply their learning with maximum impact—in some instances, adding to core Adobe Connect functionality, capabilities that users want but have not been able to achieve with just Adobe Connect. Here are some examples:
